Summary

Front-End Developer with strong UI/UX foundations, focused on building modern, responsive, and user-centered web interfaces. Experienced in translating Figma designs into scalable front-end code using Angular, TypeScript, and Tailwind CSS. Possesses solid backend fundamentals (ASP.NET, RESTful APIs) to collaborate effectively within full-stack teams. Passionate about clean architecture, usability, and design-driven development.

Skills

Frontend Development: Angular, TypeScript, JavaScript, HTML, CSS, SCSS, Tailwind CSS, Responsive Design

UI/UX Design: Figma, Design Systems, Wireframing, Prototyping, User Flows

Backend Fundamentals: ASP.NET, RESTful APIs

Programming Languages: C++, C#, Java

Development Tools: Git, GitHub, VS Code

AI-Assisted Workflow: AI tools for faster development, UI refinement, and design accuracy

Projects

EVO-TEAM Website — Frontend & UI/UX Implementation

- Designed the complete UI/UX in Figma and translated designs into a responsive Angular-based web interface.
- Built reusable UI components using Tailwind CSS and TypeScript.
- Collaborated on backend integration while maintaining focus on frontend performance and usability.
- Increased student engagement and team visibility by over 15%.

Library Management System — Frontend UI Project

- Developed a responsive dashboard-style interface using Vite, TypeScript, and Tailwind CSS.
- Implemented client-side state handling using LocalStorage (no backend).
- Focused on layout clarity, reusable components, and responsive behavior.

Vanora Mobile App — UI/UX Design Project

- Designed a complete mobile app experience in Figma for a perfume brand concept.
- Created a cohesive visual identity, high-fidelity screens, and smooth user flows.
- Focused on usability, elegance, and minimal interaction design.

Floppy Man Portfolio Website

- Personal portfolio showcasing frontend and UI/UX projects, built with Vite and TypeScript.

Experience

Front-End Developer with UI/UX Focus — Academic & Personal Projects

- Developed responsive frontend interfaces from Figma designs using Angular and Tailwind CSS.
- Implemented reusable UI components and maintained clean frontend architecture.
- Collaborated with designers and developers to align UI behavior with user needs.
- Led UI/UX decisions for student-led projects, ensuring design feasibility and consistency.
- Leveraged AI tools to accelerate development workflows and improve UI quality.

Languages

Arabic: Native

English: Professional Working Proficiency

Education

Bachelor of Computer Science and its Applications

The Hashemite University

Expected Graduation: 2026

Certifications

Full-Stack Web Development

Princess Sumaya University for Technology – 100-hour intensive training in Angular & ASP.NET

Front-End Web Development

Ultimate JavaScript Part 1: Fundamentals – Code with Mosh

The Ultimate HTML5 & CSS3 Full Series – Code with Mosh
