## Summary

Full-stack developer with a strong eye for UI/UX design. I build modern, responsive web applications from scratch, combining front-end development, back-end logic, and user-centered design. Experienced with Angular, Tailwind, ASP.NET, TypeScript, and Figma, I leverage AI tools to work faster and design with greater precision. Passionate about building scalable, clean, and impactful digital solutions.

## Skills

**Programming Languages:** C++, C#, Java, JavaScript, TypeScript, HTML, CSS, SCSS

**Frontend Development:** Angular, Vite, Tailwind, Responsive Design

**Backend Development Basics:** ASP.NET, RESTful APIs

**UI/UX Design:** Figma, Design Systems, Wireframing, Prototyping

**Development Tools:** Git, GitHub, VS Code

**AI-Assisted Workflow:** AI tools for faster development and design precision

## Projects

### EVO-TEAM Website (Full-Stack & UI/UX)

- Designed and developed a complete website for a university student team, starting from Figma design to full deployment.
- Built both the front-end and back-end, delivering a responsive and user-centered platform.
- Increased team visibility and student engagement by over 15%.

### Library Management System (Frontend)

- Developed a responsive library management interface using Vite, TypeScript, and Tailwind CSS.
- Implemented a fully functional UI using LocalStorage for data handling without a backend.
- Built a responsive sidebar layout and applied Tailwind CSS across the entire project.

### Vanora Mobile App Design (UI/UX & Branding)

- Designed a mobile perfume app concept for a single vanilla-scented product.
- Created the brand identity and high-fidelity UI in Figma with a focus on elegance and simplicity.
- Emphasized warm visuals, smooth user flow, and minimal interaction design.

## Floppy Man Portfolio Website

- Personal portfolio showcasing selected projects and skills, built with Vite and TypeScript. Live at: <https://sohaib-awwad.github.io/Portfolio/>

## Experience

### Full-Stack Developer & UI/UX Designer — Academic & Personal Projects

- Designed and developed complete web solutions from concept to deployment, combining UI/UX design and full-stack development.
- Led design efforts and built brand identities for student-led projects, including logos, visual systems, and web interfaces.
- Developed responsive front-end interfaces and implemented back-end logic using modern web technologies.
- Collaborated with team members to align design decisions with project goals and user needs.
- Leveraged AI tools to accelerate development workflows and improve design precision.

## Languages

**Arabic:** Native

**English:** Professional Working Proficiency

## Education

### Bachelor of Computer Science and its Applications

The Hashemite University

Expected Graduation: 2026

## Certifications

### Full-Stack Web Development

Princess Sumaya University for Technology – 100-hour intensive training in Angular & ASP.NET

### Front-End Web Development

Ultimate JavaScript Part 1: Fundamentals – Code with mosh

The Ultimate HTML5 & CSS3 Full Series – Code with mosh

Advanced CSS and Sass: Flexbox, Grid, Animations and More! – Udemy

Understanding TypeScript – Udemy

### UI/UX

A professional workshop using Figma for 10-hour Part 1 – Zain ZINC

A professional workshop using Figma for 10-hour Part 2 – Zain ZINC
